# WE KNOW CONCRETE

With over 40 years of experience under our belt, we fabricate concrete products using the best of both traditional and today's leading edge technology. All of our products are designed and manufactured to meet or exceed requirements of CSA23.4 and ASTM C1364.

From first contact to product delivery, our motivated team of professionals is dedicated to providing you with an excellent product and attentive customer service, on schedule and within budget.

## COLOURS

Products are manufactured in a Standard Grey colour unless one of our Premium colours are specifically requested. We can also custom match colours.

GREY STANDARD

WHITE PREMIUM

BUFF PREMIUM

JAVA PREMIUM

EBONY PREMIUM

## FINISHES

Products are manufactured in a Smooth Precast finish unless the Acid Etched, Light Sandblasted or Polished finishes are specifically requested.

### SMOOTH PRECAST

Our standard form finish is a smooth, touchable surface similar to a stone from the beach.

### ACID ETCH

Acid etching lightly penetrates the surface, exposing the sands, deepening earth tones and creating a lightly textured finish.

### LIGHT SANDBLAST

Sandblasting exposes air pockets hidden below the surface of the concrete, resulting in a natural, organic texture.

### POLISHED PREMIUM

This glossy finish is achieved by grinding and honing the concrete with diamond finishing equipment. Even the trained eye will mistake it as polished granite.

## TRIMS

We use a combination of IPE and stainless steel as a value added feature. These materials are used to meet product performance standards and aesthetically enhance the look.

## LIGHTING

We can incorporate LED channel lighting into your custom design.

## DETERRENTS

Depending on the environment, site furnishings may require sealers or deterrents. All units are available with moisture repellents, anti-graffiti coating, sleep and/or skate deterrents.

These swatches indicate general colour and finish only. To ensure accuracy please request a sample from our office. A natural variance in colour and finish is to be expected during the manufacturing process.

## FLARE

Available in 1 standard size:

	W	L	H	Weight (lbs)
<b>FLARE</b>	24	32	36	565

## WOK

Available in 3 standard sizes:

	W	L	H	Weight (lbs)
<b>WOK353040</b>	35	30	40	920
<b>WOK443830</b>	44	38	30	750
<b>WOK484220</b>	48	42	20	532

# PLANTERS

**MEASUREMENTS** | Standard sizes shown in inches, width x length x height. Custom sizes available upon request

**DRAINAGE** | All planters have 1.25" diameter drainage hole. Proper layering of filter cloth and clear stone is recommended. Custom size to function with irrigation fixtures available.

**Catalyst 137**
